

WORLD RESEARCH UNION

Uniting Researchers, Researches and Policy Makers

8st June 2023

To, **The Director,**
President of Rajamangala University of Technology Tawan-ok

Dear Sir / Madam,

Inviting Twintech International University College of Technology Students and Staff to Thailand Conference on Diversified Sciences (TCODS) in Bangkok on August 12th 2023

Greetings from World Research Union, Malaysia

World Research Union is a research foundation based in Malaysia established to unite researchers and policy makers. Through our international conferences we have achieved this consistently. Our upcoming conference viz., Thailand Conference on Diversified Sciences (TCODS) is scheduled for August 12th in Bangkok University (Rangsit campus), Bangkok, and Thailand.

We thank you for volunteering as our associates in TCODS-2023. As per your discussion with Prof. Dr. Bala Shanmugam you will be provided all privileges that you are expecting.

With profound gladness we herewith extend our invitation to research students and staff of Twintech International University College of Technology. TCODS-2023 gathers recent researches in the field of technology, management, healthcare and engineering. Motive behind this diversified conference is to update the recent researches in above fields and create a networking opportunity for our participants. All accepted papers will be published in Scopus / SCI indexed journals depending on standards of paper. We request you to disseminate this information to your research students so that they get benefited. Taking part in this kind of professional forum will elevate and enhance their research portfolio. You may allow your students / staff to register for TCODS at <https://www.wrunion.org/registration>. As a token of respect, an award-memento will be presented to your University for encouraging the research culture among your students and staff.

We are looking forward to see you at TCODS-2023 on August 12th 2023 in Bangkok.

Yours Truly,

Dr. Natacha Maswichian

The Country Manager, TCODS-2023
